Tester 3: Money: Banking, Expenses, Cash & GPay people

E.C Commutator Application – test assignment

Before you start

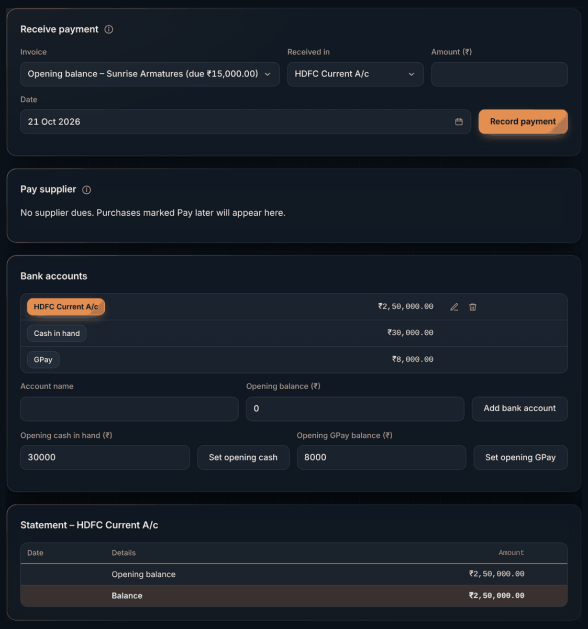

Item	Detail
Open	https://nagasadam.github.io/ec-commutator/test/
Username / password	tester3 / 123456
Version	Test copy with sample data. The orange pill says “TEST COPY · not real data”.
Your module	Banking · Expenses and Cash & GPay people

All four testers work on the **same** sample data at the same time. Other people’s entries will change totals, so judge each result by the **change** your entry causes, not by the absolute figure. Stick to your module’s entries so results stay clear. Never use Reset or “Delete every business”: it wipes the shared data for all four testers. Use a computer browser (Chrome) for the first pass, then repeat a few steps on a phone.

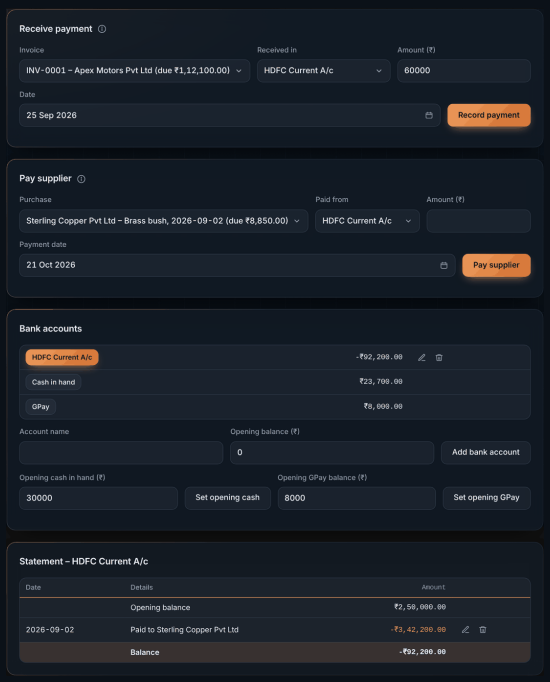

Banking

Add bank accounts, receive customer payments, pay suppliers, and view statements for bank, cash and GPay.

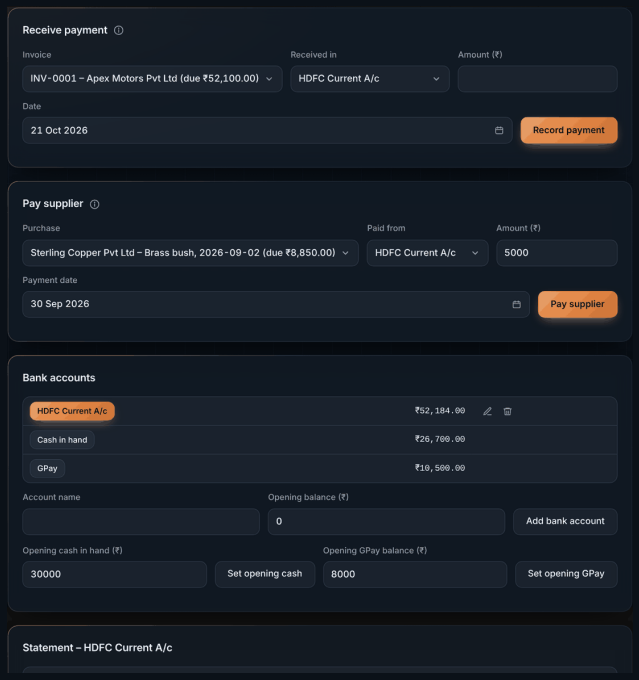

Bank accounts

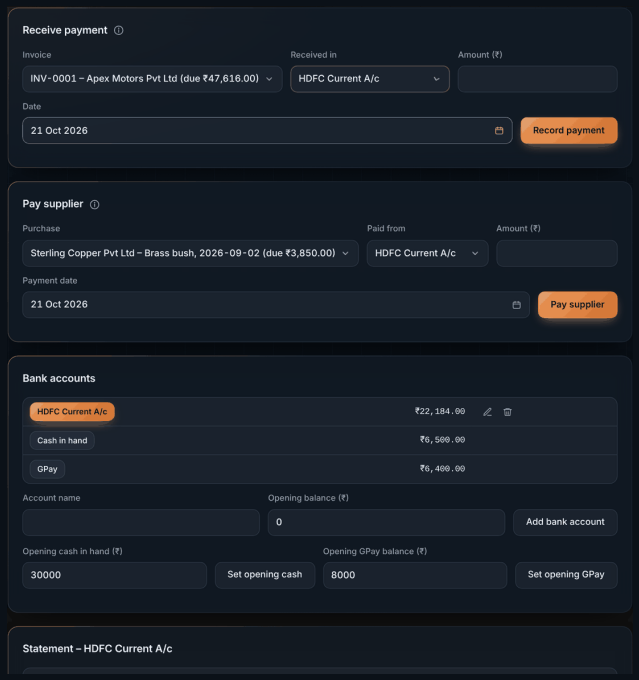

Receive payment

Pay supplier

Account statement

Test steps

#	Do this	Expected result
1	Open Banking and read balances.	Sample data: HDFC ₹22,184, cash ₹6,500, GPay ₹6,400.
2	Receive ₹20,000 from Apex against INV-0003 into HDFC.	INV-0003 outstanding falls by ₹20,000 (from ₹56,050); HDFC +₹20,000; entry in HDFC statement.
3	Receive a person’s bill (BILL-) by GPay.	Goes to GPay, no bank; bill shows paid.
4	Receive more than the invoice outstanding.	Amount box clears and shows “Max ₹...”; nothing is saved.
5	Pay a company supplier from HDFC against a purchase.	Payable falls; bank falls by the same amount. Amount above what is due: “Enter an amount up to ₹...”.
6	Pay a person supplier in cash or GPay.	Cash or GPay falls. Paying a person from a bank account is refused: “Individuals are paid in cash or GPay.”
7	Pay a supplier or record a payment for more than the account balance (bank, cash or GPay).	Refused: “Insufficient balance in : ₹... available, ₹... needed.” Balances never go below zero.
8	Add a new bank account “Test Bank” with opening balance 10,000.	Listed with ₹10,000 and selectable in payments.
9	Open the HDFC statement.	Rows in date order with running balance that matches the account balance.

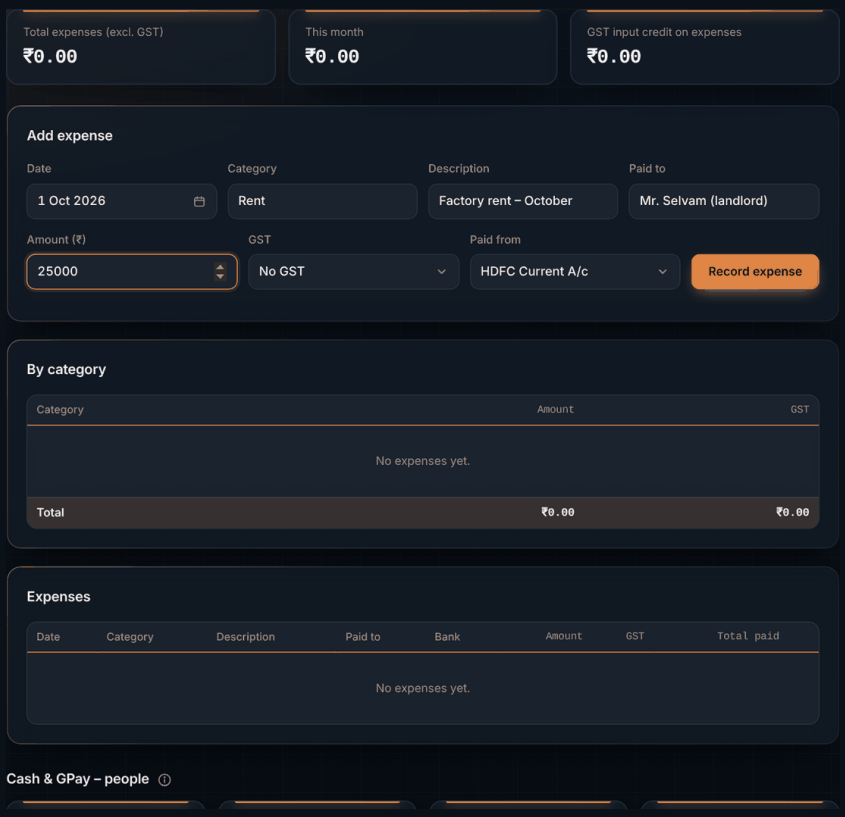

Also try

- Set Cash and GPay opening balances and check balances change by the difference.

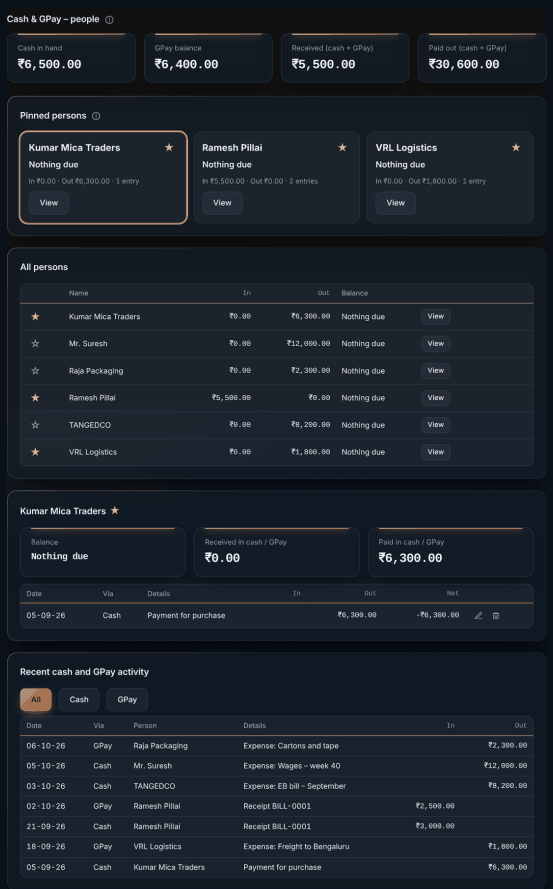

Expenses and Cash & GPay people

Record running costs from bank, cash or GPay. Under the expenses is a view of every person paid or received in cash or GPay; pin people to follow them.

Add expense

Pinned people

Test steps

#	Do this	Expected result
1	Add expense: Telephone ₹1,000, no GST, paid from Cash.	Cash −₹1,000; “By category” adds Telephone; row in the list.
2	Add expense ₹1,180 with GST on, paid by GPay, paid to “Raja Packaging”.	GST input credit increases; GPay −₹1,180.
3	Scroll to “Cash & GPay – people”.	Lists people from existing cash/GPay entries (e.g. Kumar Mica Traders, Mr. Suresh, Raja Packaging, Ramesh Pillai).
4	Pin a person and open their detail.	Pinned card shows balance and transactions for that person.
5	Unpin the person.	Card disappears from pinned; the person stays in the list.
6	Add an expense larger than the balance of the account you pay from.	Refused with “Insufficient balance in …”. A smaller amount is accepted.
7	Try amount 0 or blank category.	“Enter a category and an amount.”

Also try

• This view must not create any new transactions; it only shows existing ones.

Reporting a problem

For each issue, write one row. Add a screenshot and send the list to the owner.

Module	Step #	What you did	Expected	What happened

Also report anything confusing, slow, misspelled or hard to read on a phone.
